Protecting the consumer, the industry, and the environment

The Federation of British Chimney Sweeps (FBCS) in association with APICS joins #CarbonMonoxideSafe4Summer campaign launch

The FBCS on behalf of its member Sweep Associations (APICS, NACS, GOMCS, NCCSA & ICS) was pleased to attend the launch event for “#CarbonMonoxideSafe4Summer” today, hosted by the All-Party Parliamentary Carbon Monoxide Group and chaired by Mr Barry Sheerman MP.

We joined with Mr Barry Sheerman MP, Jason McCartney MP, Liz Twist MP, Stephanie Peacock MP and Baroness Finlay to promote the important message of staying carbon monoxide safe in the summer months. #CarbonMonoxideSafe4Summer is supported by a wide range of organisations; including United Against CO, Steve Vick International, Cadent, Northern Gas Networks, SGN, Wales & West Utilities, Domestic and General, IGEM, CoGDEM (The Council of Gas Detection and Environmental Monitoring), Liquid Gas UK, Safer Tourism Foundation, CO Research Trust, Katie Haines Memorial Trust, HETAS;, the All Party Parliamentary Carbon Monoxide Group (APPCOG) and of course the FBCS on your behalf.

The APPCOG, of which the FBCS is a member/stakeholder, has launched the ‘Carbon Monoxide Safe 4 Summer’ campaign in 2021 to raise awareness of the often-unknown risks of carbon monoxide poisoning that arise in the summer months, and inform the public how to stay safe.

It is vital to use BBQs and outdoor heaters safely by ventilating properly, and wherever you are going for your summer holidays – take a carbon monoxide alarm with you! More information about the campaign, including the Assets Library where you can download lots of free graphics and resources will be publicised shortly.

The campaign will run from 24 June – 30 August 2021, look out for further updates!
